Minutes: Special Meeting of August 11, 2009

A Special Meeting of the Clough Pond Association was held on Tuesday, August 11, 2009, starting at 6:30 p.m. at the home of Andy & Deb Knowlton. There were about 25 in attendance.

This meeting was called for the sole purpose of hearing a presentation from Barbara McMillan and Jacquie Colburn, both from the Department of Environmental Services and each with expertise in wetland management. This meeting included opportunities for questions and answers concerning the topic of pollution around the pond and what each of us can do to help prevent it.

Those present found the presentation to be excellent and full of information. A copy of the presentation and the handouts will be provided on the CPA website shortly.

No other business was conducted.

The meeting adjourned at 8:30 p.m. after we all had become saturated with data. A special thank you goes out to both Barbara and Jacquie for their attention to our needs. They both visited the pond prior to the day of the event and took pictures and gathered current details about the conditions around the pond for incorporation into their presentation. Their presentation was very professionally done and we are thankful for all that they did to address our interests.
